The Second Revolution Volume I: Faith and Struggle

Part 14

It is not my wish or my task to explain or justify the anti-Jewish measures of the Third Reich. One thing is certain: the Jewish policy of the National Socialist state was harsh - perhaps occasionally too harsh. For the sake of historical truth, however, one thing must be clearly stated:

National Socialism never planned or even carried out a genocidal program against Jewry! Mass murders are not a means of National Socialist policy! There has never been a crime against the Jewish people. As a member of the younger generation, I am not an expert on this question, mainly because my interest is not so much in the past as in the necessity of National Socialist policy in the present and the future. In view of the never-ceasing propaganda of the enemy, the uncertainty and dubiousness of many sources, and the massive political interest of those in power in demonizing National Socialism, I do not believe that we will learn the full truth about the real Jewish policy of the Third Reich, as long as the beneficiaries of the Allied victory are still in power, but that we have been lied to for decades, as eye-witnesses such as **Professor Rassinier**, prisoner in Buchenwald, **Christophersen**, scientific assistant at the Kaiser Wilhelm Institute in Auschwitz, and scientists such as the American **Professor Butz** have now proven.

There have certainly been German war crimes - especially against the hated Jews -

abuses, aberrations and crimes that we deplore, but one cannot condemn a worldview because of individual atrocities committed in its name even during a terrible war. Otherwise, after the mass murders of the French Republic and the genocide of the North American Indians ("Only a dead Indian is a good Indian," was the opinion of the - always so moral - Americans still in the last century), we should no longer speak about democracy and after the millions of victims of collectivization and the "Gulag Archipelago", we should no longer speak about Marxism!

A worldview evolves, learns from mistakes, grows from problems. The real crime of this time lies elsewhere:

For the second time in half a century, Zionism had plunged the world into a war against Germany. In 1945 the German power was broken again, also the Second World War was lost and again treason was involved. It is no wonder that we lost the war! It would have been a miracle to win, although the enemy was sitting in our own general staff, in important command posts! The extent of betrayal of especially high officers of the Wehrmacht - reactionaries and freemasons - is unimaginable and cries out for atonement! And if we once have to drag - half-dead - old men from their sickbeds, these traitors, to whom the lives of their soldiers and the freedom and existence of the Reich meant nothing, if only they could overthrow a hated regime and regain their privileges, the traitors must hang.

But back to Zionism:

This time the victory was total. From the beginning, care was taken that only resisters and emigrants - obedient servants of the occupying powers and Zionism - came to power in West Germany, as in Ostmark. Thus, the Zionists themselves were able to remain more in the background and their regained power continued to go unnoticed by the people. Today one can hear the widespread view:

"Leave them alone. The 30,000 Jews in the FRG don't matter at all anymore."

The opposite is true. Germany, decades after the war, is still an occupied country and, according to the will of the Zionists, shall remain so for all time to come. In order to get the people to willingly endure the occupation rule, a number of measures were necessary.

The division:

German border provinces, a total of a quarter of the Reich's territory, were separated and distributed to neighbors. The Eastern Zone was forced under the power of Soviet tanks. The Ostmark was declared an independent, neutral state with a legal

and contractual ban on annexation. The Western zones, however, had to take the USA as a model and became the Occupation Republic of Germany.

Denazification:

As possible carriers of a national resistance, National Socialists were first put into concentration camps ("automatic arrest"), they were banned from working for many years, their assets were confiscated, they were initially not allowed to engage in political activities, and they were constantly subjected to new waves of persecution and re-education.

Prosperity:

The liberal capitalist systems in Ostmark and West Germany reconciled people and system by increasing prosperity, and it is humanly understandable that most Germans, after the horror of war and the misery of direct occupation rule, were happy to be able to live well now at last. To a lesser extent, the same was true in the East Zone, although there the occupation rule remained more pronounced and palpable than in West Germany, where hardly anyone thought anything of it when the troops of the victorious powers marched through German cities.

Re-education:

The whole people was brainwashed. Lies and war propaganda became history, which nobody is allowed to shake, became "assured knowledge" of contemporary history, as German courts - as obedient servants of the Zionists and occupiers - believably declared, which one did not need to prove, because "after all, everybody knows that Germany was to blame for the two world wars and that the Nazis killed six million Jews. " - Which, by the way, would still have been a small percentage of the mass murders under Stalin, the highly esteemed ally in the crusade for democracy and humanity, and about as much as the innocent victims of terror bombings and expulsion! - So perfect has been the success of this brainwashing that many Volksgenossen refuse to even consider exculpatory arguments or to take note of counter-evidence.

There is no people in the world that obviously longs so much to be allowed to be guilty. If for once others do not accuse us, the Germans themselves do it and Brandt, an emigrant and Zionist servant, humbly knelt before the Polish land robbers in the name of the German people! The re-education is the real success of the Zionists. It alone prevents the healthy elements of our people from uniting in a freedom movement. It is a terrible crime, because with its history they robbed our people of its soul. This is the main reason for our hatred of this world plague, which threw everything into the dust that is sacred to us.

Artificial decadence:

The destruction of our cultural life, the Americanization of our lifestyle, the neglect of our cities, the neglect of parts of our youth, the morbid consumerism, the calls for racial mixing and the integration of foreign workers, the decline in birth rates, the increase in pornography, promiscuity and venereal diseases, the retreat into private life and many other things are symptoms of an artificial decadence. Artificial, because the diligence, the will to work and the efficiency of our people are still present, even if tarnished. Forces of resistance are still stirring in the body of the people, and it is evident that in the younger generation it is precisely these forces that are constantly growing stronger. Artificial decadence is the last - as it were final - means of the Zionists for the destruction of a people's body. The last stage before the "world state" they dream of (cf. Count Coudenhove-Kalergi, founder of the Pan-European movement in 1926: "What we are striving for is the Afro-Eurasian mixed race under the leadership of the "spiritual nobility" of the Jews" - (quotation marks by me. M.K.)

Now we realize the mechanisms that are driving Western societies to suicide. There is a great plan behind it, because the actions of our politicians can hardly be explained by stupidity alone. Seen in this light:

What speaks against it that the "Zionist protocols" contain at least a true germ, because the development described there, at the beginning of our century, has exactly come true. A coincidence?

The center of Zionist power is in the United States of North America. This is also the reason for the unsuccessfulness of left anti-Zionism, as far as it is honestly meant at all:

The anti-Zionist left has correctly recognized that Israel is in itself viable - only an instrument of power. But it sees the main enemy in capitalism and concludes from this that Zionism is a tool of capitalism, the state of Israel only a forward post of American imperialism, a stake in the flesh of the Arab nation. Thus, for the left, Zionism becomes a sideshow - a regional problem. But the anti-Zionist struggle, to be successful, must start from the fact that Zionism is our main enemy:

It is not the U.S. that controls the Jewish state and uses it for its imperialist aims, but Zionism that dominates American politics and forces the United States to follow a course in the Middle East that is exceedingly harmful to its national interests. **"Capitalism is an instrument of Zionism!"**

America is a Zionist colony, as the FRG is an American colony. Here lies the source of power of Zionism. Twice the USA decided a world war against Germa-

ny. Both times the American people wanted peace and the Zionists forced the war. Today they are always extorting new arms and economic aid for Israel - they control the American economy, especially large parts of the banking and insurance industries. They own all the major television networks and most of the well-known and respected major daily newspapers, they are the best organized and most powerful "pressure group" in the House Senators and Congressmen serve them, they are a decisive minority in the presidential election, they are the masters of the largest American city, New York, whose mayor is always a Jew. There is no American government without Jewish ministers in key positions - from Morgenthau to Kissinger to Blumenthal. More Jews live in America than in any other country on earth, including Israel. With some American government, one gets the feeling that real Americans are not fit to govern:

One finds only Jews and Negroes! But if you are neither, then you are probably a native Pole or something similar. America is also - and this is very important - the origin of the B'nai-Brith Lodge, the mother lodge and headquarters of world Freemasonry, a lodge which admits only Jews and which is more powerful than the official government. From the B'nai-Brith Lodge, Masons all over the world are commanded, and from here the threads go to the Council of Foreign Relations (CFR).

CFR, behind this harmless name hides the real American government. Here the president lets think, here his "resolutions" are made. This is where the closest links are found between the Wise Men of Zion, the American economy, the multinational corporations and - as recipients of orders - the government apparatus. Here one talks about the shaping of a future world, the "one world" - the world government.

From the CFR, in turn, the so-called "Bilderberg Conference" is influenced, a secret Masonic organization that influences the politics of the European states and in which the most influential politicians and industrialists of Europe are united. These Bilderbergers aspire to a role in Europe similar to that of the CFR in America, with which there are personal ties. This whole network is the present state of what we call - Golden Internationals, the headquarters of reaction. Here stands the opponent of peoples and national aspirations for freedom. Through the CFR there is also a connection to the second tool of Zionism - to the communist domain. Hardly any assertion seems so unbelievable, so "crazy" to the mass of the population, as the National Socialist statement: "**Communism is a tool of Zionism!**"

The February Revolution of 1917, which precipitated the overthrow of the Czar, was a Masonic revolution. This is clear from the memoirs of Kerensky, who was Russian prime minister until the Bolsheviks seized power. The February Revolution enabled the Bolshevik Party, which was only tiny, to organize itself in such a way that a putsch - and that was all it was at first - had a chance of success. The

financing of the October Revolution went through two channels:

Through the mediation of Masonic circles, the interest of the Imperial German General Staff was aroused, which had an understandable interest in relieving the Eastern Front through a Russian revolution.

Through the Jew Trotsky (his real name was Bronstein), the actual organizer of the revolution and the victory in the ensuing civil war, considerable financial resources - including those of the Jewish-American banking house Warburg - flowed into the coffers of the Bolshevik party. Nearly all leading Bolsheviks were Jews, or of Jewish descent, e.g. Lenin, Kaganovich, the notorious Cheka chief Dzheryinsky, and above all Trotsky.

The latter was the decisive figure, the Zionist confidant in the leadership of the Bolshevik Revolution. Trotsky was also the intended successor to the ailing Lenin, the hero of the "permanent revolution" that would bring all of Europe under Bolshevik rule. Neither the origins of the Bolshevik leaders nor their sources of funding can be denied. While details may still seem puzzling, Zionist support for Marxism is no more doubtful than the fact that it was Jews who developed it and brought it to power. And is there really a better idea than to pursue simultaneously from above and below the same conception of the "one world", or the world revolution.

The masses are blinded by the spectacle of an apparent confrontation between capitalism and communism and do not even notice that the power bearers of both systems are the same and that they have never really hurt each other, but tacitly divide the world among themselves. For all the external, anti-communist phrases, in reality, from the beginning until today, we experienced the uninterrupted favoring of the USSR by American policy. Here are just a few key words:

Financing of Lenin and Trotsky by Jewish-American big banks; omission of Western support for the anti-communists and tsarist loyalists during the Civil War; Soviet-American alliance in the war against Germany; rescue of the militarily already defeated USSR by massive and free equipment of the Soviet army (lease and loan contract); division of Germany and Europe between America and the Soviet Union; renunciation of the use of the pressure possibilities by the atomic bomb monopoly of the USA and the recognition of the Soviet Union as the second world power, long before it really became so in terms of power politics (a strange "espionage case" plays into the hands of the Soviet leadership the secrets of atomic research, the Soviet atomic bomb follows, the development of which is accepted without resistance); No Western aid to insurgencies in the Eastern Bloc-Ukraine, Hungary, Eastern Zone; American support for Soviet decolonization propaganda (thus the two world powers crush the last relatively independent rivals, the French and English colonial empires); enabling Communist victory in China by suddenly

cutting off military aid to National China in the midst of civil war; supplying Western technology to the Soviet Union; Vietnam and Angola, etc., etc.

The list is endless. Even those who do not believe in "conspiracy theories" in history will have to admit that so much "stupidity" is no longer normal, no longer coincidental. Every single point can be explained in another way, but this development for more than sixty years? Everything coincidence?

If everything is coincidence, then, according to the calculation of probability, every now and then decisions should work out in our favor. But where this is the case - for example, in the liberation of Chinese communism from Zionist influence, in the Sino-Russian conflict - Western policy is almost desperate not to take advantage of it. No, it must be clear to everyone that quite different plans and ideas are being pursued here. But it does not make sense to the average citizen what big capitalists and communists could have in common, where their coinciding interests lie. For the communist rulers it seems clear that they need the technology, the economic aid, the knowledge and the wealth of the West.

But the insiders - that small layer of big capitalists, bankers, leading freemasons and Zionists - what do they want? They have enormous power over the Western world, the multi-corporations are true great powers, they are infinitely rich - what else can these insiders wish for, strive for? There is only one increase of their power based on money and influence: **The absolute power - the world domination!**

Here the Red International meets the Golden International - in the common dream of total power over the earth. Here also capitalism and communism unite in Zionism - the power-political realization of the divine promise of the world domination for the chosen people. But total world domination remains total world domination, at least for the rulers. The absolute power knows no different expressions, it always remains the same, under which mask, in which name it also may appear. There is no difference between the big banker and the secretary general, here the one opponent of the grown, natural orders of the peoples and nations reveals himself. The opponent of idealism and human dignity! In any case, it should have become clear that Zionism means more than the establishment and preservation of a Jewish state in Palestine.

Dr. Nahum Goldmann, who is often astonishingly honest, but who also knows that the mechanisms of pro-Jewish opinion makers work so well that the risk of his statements is low, elaborates:

"The Jews could have had Uganda, Madagascar and other territories as their

Jewish fatherland, but they wanted absolutely nothing but Palestine, not because \$5 trillion worth of metalloids and metal powders can be produced from the Dead Sea by evaporation, not because the soil contains twenty times more oil than all the oil reserves of North and South America combined, but because Palestine is the crossroads of Europe, Asia and Africa, because Palestine forms the real center of world political power, the strategic center of world domination." (Addendum of 3/6/1979;)

Our conviction is also shared by other personalities. The supreme religious leader of the Islamic Shiites and vanquisher of the pro-Zionist Shah, **Khomeini**, wrote in his 1968 book, *The Islamic Regiment*:

"... it is our duty to expose these machinations and shout it loudly to the world that the Jews and their foreign backers have conspired against Islam to pave the way for the Jews to dominate the world ..."

The question of how to solve the Jewish problem remains. How can we confront this formidable power that seems to have all possibilities on its side?

First of all - an opponent who is recognized is easier to fight. It has always been a decisive strategy of Zionism to remain in the background and to act silently. The banning of so-called "anti-Semitic" writings and books, the gentle suppression of national ideas, the brainwashing all serve this goal. This is no longer possible! People are finally waking up and asking for the real shapers of history.

The Jewish problem can be solved, the power of the Zionist world plague must be broken. In case of our seizure of power, the Jews would immediately lose the German citizenship and would be put under alien law!

They would have to vacate their positions of power and behave as guests of our people. Of course, this is not a solution, but a national go-it-alone in further measures, would be disastrous, as history has shown. Zionism would only speak again in shrill tones of a persecution of the Jews and try to plunge the world into a third war.

The worldwide power of Zionism, must also be broken worldwide. Then also the possibility of a natural world order on the basis of peoples and races arises, while the horror vision of an absolute, materialistic world coercive state - the deluded dream of an unfortunate people - cannot become reality. The Jews should have their own state in which they can live freely. This state must be viable and include all Jews. This new Jewish national state must not be in Palestine. Palestine is and remains Arab homeland! But there is still room enough

in the world for a hard-working, intelligent people, who would then no longer need to be the terror of the world. Once again said:

Our hatred is directed against the Zionist world plague, not against the individual Jew. There have always been Jews who did not become tools of Zionism and there are still today. It is to them and to those Jews who have no clear idea at all of the crimes of their Zionist leaders that we appeal:

"Become a people like others, renounce your dream of chosenness. Do not proudly rise above the goyim (gentiles), then you will not face their opposition. Let us draw a line and start anew!"

But if this does not happen and Zionism does not give up its worldwide criminal plans, then it will be crushed mercilessly.

Final Solution of the Jewish Question:

This does NOT mean the extermination of the Jewish people, but the COMPLETE DISMISSAL of Zionism.

This final solution is the most important task of the near future.

Molly: Well I try to still update the photo gallery, but mostly I've been concentrating on Adolf Hitler and the Army of Mankind (www.mourningtheancient.com/truth.htm) I'm at 21 pages now, and I have so much more to do. Studying WWII is an absolute minefield of information. You seek out information on one thing and find two more things to research. It feels a bit like you are an archeologist, unearthing the buried past. A past that they would rather not be brought to light. The Fight Goes On !

Seventy years after the capitulation of the Wehrmacht on May 8, 1945, the postwar National Socialist movement is stronger than ever not only in Germany, but throughout Europe.

Decades of mass murder, expulsion, persecution, and defilement have not sufficed to destroy the seed of the brilliant idea of our much loved Führer Adolf Hitler.

All National Socialists and other racially-aware citizens and racial kinmen fight side by side for the preservation of our White folk.

The movement has indeed become stronger, but the danger of biological folk death is also much greater today than in the past.

The desperate enemy is in the process of committing genocide against all White folk. The means are non-White immigration, culture diversion, and re-orientation.

Whether "Rage" or "Rage", whether in election halls or street battles, whether armed with propaganda essential or on a battlefield of a different kind, every National Socialist must do his duty!
