**10 years since November 1st of 2013. 10 years since the murder of our two Comrades, Giorgos Fountoulis and Manolis Kapelonis. 10 years since the day that the regime showed its most despicable face thinking that it would terrorize the Nationalists of Golden Dawn.**

**The pathetic gang of anti-fascism needed hoods, firearms, an instant escape vehicle and the full cover of the authorities, to dare to face Goldendawners.**

**And while Alexandros Gerondas also fell seriously injured beside the two National Martyrs, today he is still proudly with us.**

**This year more than any other year, we are all called upon to prove, to the murderers and their moral accomplices: that they have accomplished nothing, that the Blood of our Comrades has strengthened our will to Fight.**

**On November 1, 2023, every Nationalist will be in the same place, at the exact same time for the eternal call. On November 1, 2023, we do not grieve, we honor our Heroes and united we take the Holy Oath that they will never be forgotten!**

**10 years later, Giorgos and Manos are still walking beside us!**
