The Second Revolution Volume I: Faith and Struggle

Part 15

A WORLD FULL OF ENEMIES

The National Socialist movement fights against a world of enemies: Liberal capitalism, Marxism and reaction. Against materialism, Zionism and the dangers of race war. Four great intermediate goals, stages of our revolution, separate us from our victory.

The first goal - as mentioned earlier - is the lifting of the Nazi ban. I have already explained why the German freedom movement considers it absolutely necessary for the National Socialist German Workers' Party not only to operate underground, but to be able to appear freely and openly again. We are opposed by all the established political forces in this country - from the DKP to the NPD, from capital to the united trade unions, but this should not frighten us:

It is precisely the consistent rejection of all forces that support or recognize this system that secures us the mass base at the moment when the system falters and people become dissatisfied. The enmity of others also acquires for us the support of those who, for whatever reasons, feel and want to eliminate the emptiness, the incapacity, the futility, the boredom and the hypocrisy of the system. We must be the radical negation of the existing, the fundamental alternative, then we will con-

vince the youth and shape the future.

The second goal is the creation of a Greater German Reich in a free Europe of the peoples. The Greater German Reich - that means the end of three partial states FRG, GDR and FR Austria, which have been consolidating more and more for decades and try to give their citizens a separatist state and national feeling. The Greater German Reich means that Poland and the CSSR (as well as the Soviet Union) will have to give back the German eastern territories.

Even if the German freedom movement, assuming the cultural and ethnic autonomy of these regions, renounced the restitution of South Tyrol, Alsace-Lorraine, Eupen-Malmedy, and Northern Schleswig, we must always assume the hostility of the democratic governments of Western Europe, which still have occupation forces stationed in Germany in considerable numbers - all together, an impressive picture of the front of our opponents.

But on our side are the freedom movements of Europe, National Socialists, National Socialists and Fascists of Europe have long been united. Following the tradition of the European Waffen -SS, they stand shoulder to shoulder against the common enemy. A particularly warm friendship connects us Germans with the Flemish, Walloon and English comrades, but also to all other freedom movements of the continent go our connections.

Besides the legal freedom movements of the peoples, which meet among other things annually in the Flemish Diksmuide, the WUNS founded the section Western Europe, which is led at the moment, by the leader of the Danish National Socialists. In addition, there are the comrades of the Eastern European exile movements, some of whom fought alongside us in the World War. The comrades from Europe, indeed the comrades of the whole White World, support the German struggle for freedom and its national demands - in the knowledge of the importance of Greater Germany for the shaping of a united Europe.

On our side, however, there is also historical logic. Nationalism is a decisive force of our time, as we see with the peoples of Asia and Africa. It is natural that a people belongs together and forms a unified state - how else could it express its will, if not in the form of a state community?

We Germans have no less right to freedom and homeland than, for example, the Palestinians. The declarations of the United Nations on the Palestinian problem apply not only to the PLO, but also, mutatis mutandis, to the German freedom movement. Of course, this right to a united and free nation-state will not be granted to us voluntarily, but by denying what is granted to every Negro tribe as a matter of course, the enemies of Germany put themselves in the wrong. It is not at all

inconceivable to form a common front of nationalism with the awakening peoples of Asia and Arabia, against the internationalism of the rotten bourgeois world of the West and the national oppression of the peoples in the East! We have friends in the world and in Europe: **together we will win.**

Our third goal is the final solution of the Jewish question. I use this term quite deliberately because it has become a taboo of the postwar period. It was the atrocity propaganda of the democratic, Bolshevik alliance that gave this term of the Third Reich's Jewish policy the interpretation of genocide. What was meant by it, however, was:

The destruction of Zionism (organized power of the world Jewry)! This is unchanged also our aim. In this way we inevitably attract the enmity of the Zionists, who have at their disposal, at least to a certain extent, the power of the superpowers USA and USSR, as well as the influence of the Masonic secret organizations. Although Zionism is our greatest and most dangerous enemy - an enemy that twice drove the world into war against Germany and won both times - we must not lose ourselves in a panic fear, in a persecution mania, as parts of the sectarian Luderdorff movement like to do, who smell Jews everywhere.

The power of Zionism is infinitely greater than the average citizen suspects - I described this in the previous chapter, after all - but it is less than some comrades fear, who use this argument only to explain their lack of success and inaction. There are only a tiny number of initiates who are pushing the great plan of the Wise Men of Zion. The last "chosen one" who, to our knowledge, still held a public position himself instead of putting a straw doll in front of him, as is usual today, the Weimar Foreign Minister Rathenau, spoke of three hundred men who rule the world, each of whom knows everyone. This small number is an essential advantage for them:

They can act very quickly and effectively, and yet they remain completely anonymous, cannot be exposed, and they have no treachery to fear. But this also has disadvantages:

Their actual, direct, physical force and power is small. If one destroys their tools - the secret societies - and thus their control over the state, economic and journalistic means of their host peoples, one can fight them effectively. So far, however, the "Wise Men of Zion" have always been able to withstand regional setbacks, as in Europe in the 1930s and 1940s, thanks to their power in other regions of the world. **The fight against Zionism must therefore be waged worldwide!**

This is where the German freedom movement fits into a world front:

Nowhere are the Jews very popular, Zionism has been solemnly outlawed by the United Nations and even in the Zionist stronghold, the USA, forces of resistance are stirring. It is not only the American Nazis or the Ku Klux Klan there, many - patriotic and race-conscious - organizations and even respected politicians, industrialists and reporters are resisting Zionist slavery.

Asia seems to be completely free from Zionist influence, except for the attitude with the international economic and financial world. And in Africa, after years of quite strong Zionist influence, the Arab nation has succeeded in displacing it. In Russia, too, the forces of anti-Zionism are stirring again and again. The Russian people in particular are to a large extent anti-Jewish and their pride resists being only a tool of Zionism. Even the KPDSU must take this into account by an outwardly anti-Zionist policy, which, however, should not deceive anyone:

Since the assassination of the National Communist Stalin, who hated the Jews and once thwarted the Zionist plans by defeating Trotsky, Zionist circles have definitely regained influence on Soviet power. We know that this struggle has not been decided within the party, state and military apparatus.

The National Socialist opposition in Russia, which is very well organized and whose transitions to the organized Stalinist faction by which it is covered are fluid, has some influence on the people and the state, but nothing has yet changed in the fact that the Soviet Union is a tool of Zionism.

We cannot help the Russian people in this anti-Zionist struggle and only vaguely recognize the course of the front. But only an official rehabilitation of Stalin would be a signal for the end of Zionist power in the USSR. But in the Russian people, we will one day find as reliable an ally in the struggle against the Zionist conspiracy as in the Arab nation.

The fourth goal is the establishment of the Aryan community of nations. Our conception of the race struggle and our warnings against a race war in which the Aryan threatens to be defeated seem to make enemies of Negroes and Asiatics alike, and therefore the warnings of political friends against a front position against the colored people may only be justified.

But one should not forget that these goals are realized not only in a logical but also in a temporal order. In politics one must always show the people only one opponent, concentrate the propaganda only on one question, direct the enormous energies of a people of 80 million always only to one goal. Only the leaders of a people, the elite of fighters and believers, know the final goal of the movement. Alliances will be made and it is not, as we are accused, that we provoke the racial struggle.

The racial struggle is a fact, at any time, under any system! The only question is whether we want to win or lose. Paradoxical as it may sound :

Just as, thanks to its clear realization of reality, National Socialism, as the only force, can overcome Marxism with a people-oriented socialism, just as National Socialism, precisely as a nationalist movement, because it respects the national feeling of others just as much as it expects it vice versa, because it can unite the European continent, so our movement, also better than others, will succeed in preventing an impending race war!

We Germans in particular have many friends in the colored world from whom no conflict of interests separates us. Our measures against an imminent alienation cannot offend a race-conscious Asian any more than national-minded Persians, Turks or Arabs, with whom we have a long historical friendship. These proud peoples and races, for their part, would just as little desire this intermingling. A good tradition of friendship connects us especially with the Arab nation, whose spiritual leader - the late Grand Mufti of Jerusalem, Hussein, - was a great friend of our people and an ally of the Reich during the World War, and likewise with Japan, Turkey and Iran, the long-time homeland of the Aryans. Reason dictates that we form an alliance with the strongest power not dominated by Zionism - the People's Republic of China.

Racism does not mean to draw a distorted picture of the subhuman. Racism means:

To prevent a mixture inwardly and to secure outwardly the survival of one's own race, in the eternal struggle of nature and history. Only when all races and peoples recognize this equally, mutual respect is possible. Especially the ancient cultural peoples of Asia know this very well, but also the awakening nations feel it in their nationalistic agitation. The Aryan community of nations will be able to form an alliance with other nations and races just as the Greater German Empire once did, which operated a historic alliance between an Asia united by Japan and the New Order in Europe. The old German-Japanese alliance - the Berlin-Tokyo axis - may be the model of the future, for a world order on a racial basis.

In any case, we National Socialists are closer to the young, awakening nations than to the decadent plutocracies and the Bolshevik slave states. It will be a long struggle and it is quite possible that our generation will not live to see the victory. Therefore, our fighters are not driven by greed for the manglers of state power. Our movement lives on love for the people and loyalty to the idea.

Nobody can expect that a few decades after the total defeat a new victory is in

front of the door. What are decades in the eyes of history! This counts in ages, not in years. The task of our generation - the 1950-65 cohorts that predominate in the movement today - was to take up the tradition and carry it forward.

The sun wheel symbolizes the eternally victorious emergence of the sun after a dark night, the victory of light over darkness. The sun is not extinguished! Sometimes it seems to us like a miracle and yet we experience only the inevitable victory of the laws of nature over a world of art. And if our young fighters succeeded only in one thing - to keep the image of the sun alive in the hearts of people - we have achieved everything. May only later generations then reap the victory, we accomplished greater things: **we defied the night!**

Two worries plague the young fighters of our movement:

The great power of the enemy and the - in proportion - seemingly so small number of comrades. I say to you, "**It is good that we are few!**"

We are forming an elite, our movement is raising a generation of fighters for whom nothing will be impossible. Oppression and persecution form the revolutionaries of tomorrow. Only those comrades who know no fear for their bourgeois existence, who are determined to sacrifice everything if necessary, will find their way to us.

Der Kampf geht weiter !

Selbstig Ideen nach der Kapitulation der Wehrmacht am 8. Mai 1945 ist die nationalsozialistische Bewegung stärker als je zuvor in der Nachkriegszeit. Und zwar nicht nur in Deutschland, sondern auf globaler Ebene!
Inhalte: von Völkermord, Verbrechen, Verfolgung und Verurteilung haben nicht ausgereicht, das Karma der gesamten Rasse können hoch gelobten Führer Adolf Hitler zu erlösen.
Alle Nationalisten und weniger erfahrene Völker und Rassenmenschen stehen Schicksal an Schicksal im Kampf um die Erhaltung unserer rassen Völker.
Der Bewegung ist zwar nicht gut worden, aber die Gefahr des Verfalls der Völker ist heute noch viel größer als in der Vergangenheit.
Der verantwortliche Gegner ist aber dabei, das Volkstum - gegen alle rassen Völker (?) - zu hegen. Seine Mittel sind Erziehung, Überzeugung und Konvertierung.
Ob "Nazi" oder "Hitler", ob in Wahlkampf oder im Streikkampf, ob im Propagandakampf, letztlich aber auf einem kollektiven anderen der Idee Nationalismus ist seine Pflicht!

Interview with Molly
Part Three

NSK: Your current projects are obviously philosophical and art related.

Please describe your views on the impact of such topics in politics.

Molly: Well I try to still update the photo gallery, but mostly I've been concentrating on Adolf Hitler and the Army of Mankind (www.mourningtheancient.com/truth.htm) I'm at 21 pages now, and I have so much more to do. Studying WWII is an absolute minefield of information. You seek out information on one thing and find two more things to research. It feels a bit like you are an archeologist, unearthing the buried past. A past that they would rather not be brought to light. We can thank the internet again for the flood of information and pictures. Extremely rare stuff has

The Fight Goes On !

Seventy years after the capitulation of the Wehrmacht on May 8, 1945, the postwar National Socialist movement is stronger than ever not only in Germany, but throughout Europe.
Dozens of mass murder, expulsion, persecution, and defilement have not sufficed to destroy the seed of the brilliant idea of our much loved Führer Adolf Hitler.
All National Socialists and other racially-aware citizens and racial kinemen fight side by side for the preservation of our White folk.
The movement has indeed become stronger, but the danger of biological folk death is also much greater today than in the past.
The desperate enemy is in the process of committing genocide against all White folk. The means are non-White immigration, culture diversion, and re-orientation.
Whether "Nazi" or "Hitler", whether in election battle or street battle, whether armed with propaganda material or on a battlefield of a different kind, every National Socialist must do his duty!
Hilf Hitler!
